COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 14. No. 38. The County Seat Paper NEVADA CIT Y, CALIFORNIA, The Gold Center FRIDAY, MAY 10, 1940.

From the Californian, March 15, 1848:
The Liberty of the Press consists in the right to publish the Truth, with good motives and for justifiable ends. —Alexander Hamilton.

Thinking Out Loud

By H. M. L.

(Excerpts from an address before the Nevada City Rotary Club.)

Men of a philosophic mind trend often seek in other realms than in those of their own kind, a key to the enigma of our existence on earth. Since the bees seem to have an unusual organization, resulting in a certain kind of communal government, scientists and philosophers have long been interested in trying to discover the laws that govern them.

One of the most distinguished of the long line of naturalists who from ancient times have studied bees and published the result of their observation, is Maurice Maeterlinck, a Belgian whose "Life of the Bee" was translated from the French by Alfred Sutro at the turn of the century. Maeterlinck found certain parallels between human kind and the hymenoptera of which the bee family is a member, that even while they may prove more apparent than real, do afford an interesting basis for speculation.

Among these parallels or analogies, is the fact that just as all degrees of what we call civilization is represented among human races, from the lowly Bushmen of Australia, through Polynesian and African cannibal tribes and the semi-barbarians among Arabs and Asiatic Indians, till finally civilization flowers among English, French, Japanese, Chinese, Italian, or the so-called Nordic races, so among the hymenoptera is found the lowly bumble, or humble bee, in which the cannibal adults attempts to eat the eggs or larva, and the female is forced to fight him to save her progeny, up through the mud daubers, the predatory wasps that belong to insect carnivora, until finally we come to the highly organized bees which feed upon nectar and store up prodigious quantities of honey and other foods for posterity.

Maeterlinck speaks of the "spirit of the hive" as the ruling force in the government of bees, but we feel that a more descriptive term would be the "law of the hive." How the law, or rather a body of laws is transmitted from one generation of bees to the next, is still a baffling mystery, but this much seems apparent: bees are born with the hereditary knowledge, which commonly goes by the name of instinct, of the laws that govern them. They exercise, furthermore, a remarkable judgment in applying the laws. If they have more than one choice of action, they will sometimes do one thing and sometimes another. For instance, when a swarm has left the hive for new quarters, and a new queen emerges from the cell in which she has hatched, she immediately seeks to destroy, by stinging to death the other royal princesses who have not yet emerged from the cells. But the workers may restrain her by forming a living prison around her with the walls composed of their bodies. When they do this however, it will be only a few days before a second swarm leaves with the new queen to lead them to and to populate the new home. On the other hand if the "law of the hive" decrees that there will be no more swarming for sometime to come the queen is permitted to murder the young princesses in their cells.

Bees are easily studied, because they will proceed with their daily activities in glass hives. It has been observed that while the worker bees, which are sterile females, wait upon and tenderly care for their queen, since she is literally the mother of them all, she is in no sense the ruler of the hive. As noted above, on occasion they will restrain her from an act, which under the "law of the hive" may jeopardize or injure the colony.

The natural endowment of the worker bees is stupendous. The worker bees produce the wax which walls, floors and seals the cells containing the honey, they produce the honey that fills them, they also manufacture propolis which they seal up their dwellings and make them weather proof. In an organ in their heads they secret what is known as royal jelly, a thick milky fluid, which is fed for a short time to the worker nymphs in their cells and for a longer time to the royal princesses during their incubation period. The poison of bee stings is chiefly formic acid, but greatest use made of it is not for stinging enemies,

(Continued on Page Two)

CLOSING DATES OF NEVADA CO. SCHOOLS LISTED

In a few weeks Nevada county schools will close with one of the most successful of terms there being no shut-downs for epidemics of any sort. There are approximately seventy seven to graduate from the rural schools.

Closing dates for the schools of the county are as follows: Friday, May 17, Bear River, Spenceville, Kentucky Flat, Pleasant Valley, Washington and Wolf.

Thursday, May 20, Clear Creek. Wednesday, May 22, Chicago Park; Friday, May 24, Boca and Mariposa schools; Thursday, May 27, Lime Kiln; Friday, May 31, Forest Springs, French Corral, Union Hill, Indian Springs, Mooney Flat, Oakland or Gold Flat; Monday, June 3, Rough and Ready, Truckee, Birchville, North San Juan; Wednesday, June 5, North Bloomfield; Friday, June 7, Cherokee, Floriston. Nevada City, Grass Valley, Tuesday, June 25. Blue Tent; Friday, June 28, Graniteville.

The Meadow Lake high school at Truckee will close on June 3. There are twenty eight elementary schools in Nevada county.

HIGHWAY CREWS START WORK ON DEPOT HILL AREA

Bert Foreman and H. F. Sofge, president and secretary of the Nevada City Chamber of Commerce, respectively, paid Downieville a "good will" visit Tuesday.

They found crews working at various points along the Nevada City-Downieville "highway of many curves." At Depot Hill 20 foot drill holes were being made for a distance of 700 feet and blasting will be done here to widen the road. South of San Juan a huge steam shovel and bulldozer were cutting off curves, the debris being placed in four dump trucks. Work will also be done north and south of the South Fork of the Yuba river. Crews have cut away brush and timber along proposed changes.

At the conclusion of this work, the equipment will be moved to the section between here and North San Juan where the remainder of the work will be done.

CHURCH TO RISE FROM LUMBER IN ARMORY HALL

Six men with their pastor, Rev. Robert Carrington, started tearing down the old Armory Hall yesterday morning. The minister secured the building from Purity Stores for razing it and the group are doing the work as a service to their church. All salvaged lumber will be used in construction of a church in Nevada City. The minister has been trying to secure a lot for some time to build a church on and the lumber is to be stored until a site can be bought. At the rate the men are working the building should be down in two weeks.

HIGH SCHOOL PROM WILL BE MAY 17TH

The senior class of the Nevada City high school is now working on plans for the senior ball, scheduled for Friday evening, May 17, at the school gymnasium .This will be the final social event of the school year.

William Wagner, class president, and his decoration committee are working out a colorful scheme to carry out the theme "Moonlight Serenade." It was announced recently that Captain Carter will supply music for the dancing.

Mrs. Eva C. Flewellen is the class adviser.

SEVERELY INJURED

Jack Greentree of Glenbrook Heights is in Jones Momerial Hospital with a broken neck which he sustained Wednesday morning at 9 o'clock in the underground workings of the Bullion mine. He was barring down rocks when a sudden shower of rocks fell on him.

LARGEST TROUT OF SEASON CAUGHT BY GRASS VALLEY MAN

A large crowd gathered about the Nugget office late yesterday afternoon to see a splendid catch of large trout brought to town by Ed Lambretch of Grass Valley and Mr. and Mrs. John Miller of Folsom. There were eleven trout in the lot the largest weighing six pounds. These choice trout were caught in Lake Tahoe and spinners were used to catch them.

Lambrecht is a well known sports man of Grass Valley, several years ago he won the Sacramento Bee contest prize for largest trout caught. Yesterday's catch is believed to be the largest brought in so far this season.

HAVE YOU A FLAG TO DISPLAY ON HOLIDAYS?

Have you an American flag to hang from your porch or store on the coming holidays? Remember there are Decoration Day, May 30, Flag Day, June 14, Independence Day, July 4.

If you have not and desire—as a good American citizen—to hang out OLD GLORY over your door on patriotic holidays the Nevada City Nugget will supply you with a flag as a premium on subscriptions paid a year in advance into this office—before July 3rd. The flags are on display in the Nugget window.

These flag outfits represent a conservative retail value of $1.50. They consist of the FLAG, three feet wide, five feet long, made of durable cotton bunting, with sewed stripes, and printed stars, a sturdy brass jointed pole six feet long, varnished with a hardwood knob to cap it, a cotton rope and a strong aluminum holder for screwing onto porch or window sill, the whole packed neatly in a metal cornered shipping board box.

HEARING FOR MEN HELD ON ASSAULT CHARGE POSTPONED

The preliminary hearing for Delbert Fuller and Walter Barnes, charged with assault by means of force likely to do great bodily harm, a felony, and resisting a public officer in the discharge of his duties, a misdemeanor, has again been postponed until Monday, May 20, upon request of the defendants.

The original hearings was scheduled for April 25, but was postponed until May 8. Fuller and Barnes asked that another postponement be granted as they have had insufficient time to prepare for a defense.

Hearing for two additional charges against Fuller — drunken driving causing great bodily harm, a felony, and driving on the wrong side of the road causing great bodily injury, a misdemeanor, has also been postponed until May 20.

TWO MEN ARRESTED ON TRESPASS CHARGE

A complaint filed by Mrs. Vesta Young of Nevada City resulted in the arrest this week of John Wheeler and Elton Cross of Cherokee for alleged mining on the property of Mrs. Young near Shady Creek. Deputy Sheriffs Carl T. Larsen and Fred Williford apprehended the men.

The two men pleaded not guilty at their arraignment before the justice of the peace L. W. Wood at Nor. San Juan. They were released on the promise they would appear before Judge Wood at a later date.

Mrs. Young stated the men refused to leave her property after she had attempted several times to halt their activities.

LADIES AID SALE NOW IN PROGRESS ON BROAD STREET

The ladies Aid Society's three-day rummage sale is now in its second day in the building next to the Armory Hall, formerly occupied by the Noyes Electrical Shop.

Sales commence each morning at 11 o'clock with many interesting things on display at reasonable prices. Anyone having articles that they do not want are asked by the society to offer them for sale. They will be called for by calling Nevada City 340.

Census Takers Miss Best Known Citizen of This Community

The census has been taken in Nevada City and the census takers have not caught up with Max Solaro, city fire truck driver, although the city hall was headquarters for the enumerator and Max lives upstairs in the city hall. Quite an oversight of the most popular person in town.

Max is he first person called on for everything—and yet the government failed to include him in the nose-counting. To illustrate this: when some lady leaves an electric iron on her ironing board and it gets on fire, or any other fire breaks out, who is thought of? Max Solaro. When the police are busy, who do those in trouble think of? Max Solaro. When old Armory Hall needed wiring, who was thought of? Max Solaro. When the electrical fire alarm system gets out of order, who is thought of? Max Solaro.

Yet the census takers did not count Max. If they have caught up with him at this date, the reporter apologizes.

COUNTY SCHOOL SUPT. IS SPEAKER AT TRUCKEE

Walter A. Carlson, county superintendent of schools, in a Public Schools Week program in Truckee recently recited the following facts concerning Nevada county schools:

1—There are 28 elementary schools with a total enrollment of 2175 students and three high schools with a total enrollment of 910 students in this county.

2.—Almost one half of the elementary pupils and two thirds of the high school students are in Grass Valley.

3—There are 118 teachers employed in the county.

4—Surveys made by the state show 70 per cent of the school buildings classrooms, equipment, water and toilet facilities are unsatsifactory.

5—During the past five years new buildings have been erected in Nevada City, Grass Valley, Truckee and Union Hill.

Carlson declared that the average cost per year for an elementary pupil in Truckee is $92.58 and for the high school $337.80. The average high school student unit cost is $148.19 and the average for the elementary schools is $88.67.

While this may sound high at first, our tax rate shows a different picture. The comparative rates were given as follows:

Truckee elementary	18 cents
Nevada City elementary	62 cents
Grass Valley elementary	80 cents
M. L. U. High (Truckee)	24 cents
Grass Valley high	45 cents
Nevada City high	64 cents

Carlson discussed the full time health nurse service inaugurated and urged formation of a Rural Teachers Club and told of the need of improvement in teachers in service. He strongly emphasized a need for a count library for benefit of adults and children alike.

EXTENSIVE ACTIVITY EXPECTED AT HOGE MINE FROM STRIKE

Leasers, mining and developing at the Hoge mine near Sugar Loaf in the Nevada City district, are reported to have struck a two foot quartz vein showing free gold this week.

Considerable activity is expected to result from the strike, if it is as extensive as preliminary surveys indicate. Arthur W. Hoge and his son, Arthur W. Hoge, Jr., have operated the Hoge Development Company since 1928. It is reported that over $600,000 have been taken from the mine since that time.

CASHIN FIELD REPAIRED

The city crew aided by members of the Nevada City baseball team, this week graded Cashin's Field, in answer to the demand for a suitable diamond for the local squad to play on.

A home plate was made by Cliff Robbins and the field will be lined, dragged and finished in the near future.

ROBSON WARNS DOG OWNERS TO OBTAIN LICENSES FOR PETS

Chief of Police Garfield Robson recently issued another warning to dog owners of the city to have their dogs tagged this year. The new 1940 tags are waiting for new customers. Robson also stated that the police department is building a new pound near the city dump and dogs that are picked up on the streets and placed in the pound will be left there at the owner's expense.

SEN. SEAWELL OFFERS PRIZE TO HI STUDENTS

Nevada City Nugget
Nevada City, Calif.
Dear Mr. Leete:

For some time I have been trying to develop a program in our high schools that would stimulate interest in school debates, and at the same time prove educational to the students.

Recognizing the fact that our state government is not generally understood by adults, much less by students of high school age, I am offering a trophy to be contested for by the several high schools in my senatorial district which consists of the counties of Placer, Nevada, and Sierra. The subject of the debate between these schools is to be on any problem relating directly to the state government of California.

This trophy will be contested for first during the school year starting next September, and will be a circulating trophy with space provided for the name of the school that wins it and the team representing that school to be inscribed upon it. Any school winning it three times will become the permanent possessor of the same, and a new trophy will then be presented.

Mr. J. W. Hanson of the Roseville Union high school, has kindly consented to act as chairman for the debating contest, and the schools located in this district, through their priucipals, have agreed to contest for the same.

I believe this program will have a very salutory effect upon the student bodies of the school involved and bring about a friendly school rivalry, with the result that the government of this state will become well discussed in the circles which bring forth our future citizens.

I am giving you this information because I believe the people of this district will be greatly interested in a program of this sort and will recognize the benefits that will accrue to the children by the same.

Sincerely yours,
JERROLD L. SEAWELL.

TRINITY PARISH MEMBERS HEAR EPISCOPAL MONK

The Rev. Father Earle H. Maddux, a monk of the Society of Saint John, the Evangelist, addressed the people of Trinity church during their spring social hour Wednesday evening at the National Hotel.

Father Maddux informed the people as to his work and that of his fellow monks in building up the churches in the slum areas of our great cities. He told of his experiences in San Francisco during the past three years and of how he is finishing his work there, since the work is now built up so that a married clergyman can handle it.

Father Maddux gave much interesting information upon how the clergy came to be called Fathers, and how monks come to take their vows of poverty, chastity, and obedience. He pointed out that they are compelled to undergo several months of waiting and testing to find out whether or not they can stand the work, and they are never allowed to take their final vows until thirty years of age.

Father Maddux leaves the West Coast for Cambridge, Mass., next month. As he said, the work is completed so far as he can complete it in San Francisco Episcopal churches, and now he is needed upon another front. On his way east, he will visit his mother and father in Colorado.

HIGHWAY 20 MAY BE SCENIC ROUTE DECLARES C OF C

H. F. Sofge, secretary of the Nevada City Chamber of Commerce, has been advised by Fred C. Tatton, of the state chamber, that the Sacramento Valley Council will discuss converting Highway 20 (Ukiah-Tahoe) into the scenic highway of this part of the state at a meeting to be held today. Many changes, including re-routing and major improvements, will be advanced by business and social groups.

The following press release from the California State Chamber of Commerce outlines the important subjects that will be submitted, Sofge, and other local chamber members, are expected to attend.

SACRAMENTO, May 10. — The submission of a year long study of the State Chamber of Commerce Migrant Committee will be one of the important subjects discussed at the Sacramento Valley Council meeting to be held Friday, May 10 at the Hotel Senator, Sacramento, at 10 a. m. according to Geo. G. Pollock, council chairman. The committee, representing major business and social groups in California, has developed a series of recommendations which it is hoped will serve as a basis of state and national action looking towards the solution of the problem.

Farm Labor

F. T. Robson, Vina, chairman of the Agricultural Committee of the Council, reports that particular attention will be given to the question of garicultural labor and to legislation affecting farm credit.

Pending unemployment relief legislation and legislative proposals dealing with new taxes and unemployment insurance taxation will be reviewed by the tax committee. The chairman, J. A. Irving, Placerville, reports that several members of the legislature, including Roy J. Nielson, state senator, and Assemblyman Earl Desmond, will be in attendance to discuss findings of special legislative committees.

Conservation Laws

The conservation committee, under the chairmanship of Kenneth Walker, Westwood, will discuss a proposed legislative constitutional amendment providing for the reorganization of the State Board of Forestry, forest insect control funds and fire prevention and protection will also be given consideration by the committee.

The highway committee will receive recommendations by counties for construction and reconstruction items for inclusion in the 1941-43 biennial budget, according to Howard Reamer, Clarksburg, chairman of the committee. Delegations will present information regarding the Sacramento, North Sacramento grade separation.

Tourist Attraction

Attraction of tourists to the Sacramento Valley is the principle interest of the travel promotion committee and Kenneth Hammaker, North Sacramento, committee chairman, states that particular attention will be given to the California state fair and the 1940 fair on Treasure Island.

Sommunities along the Tahoe-Ukiah highway, Route 20, will develop plans for promotion of travel on this scenic and historic route.

CHAMBER SECRETARY THANKS ALL AIDING ARMORY HALL DANCE

H. F. Sofge, secretary of the Nevada City Chamber of Commerce, wishes to thank everyone who contributed to the success of the farewell Armory Hall dance Saturday evening, including Purity Stores who donated the use of the hall and the refreshments.

MAXSON CHARGED WITH CAR THEFT BY CCC OFFICIAL

Charges of unlawfully taking a motor vehicle, a felony, have been filed against Lloyd Maxson, recently arrested on charges of theft of a CCC truck. The charges were filed by Paul Bellamy of the Grass Valley CCC camp in the justice court of Grass Valley.

He was taken Wednesday from the city jail by Under Sheriff W. D. Woods and placed in the county jail.

Can't It Happen Here?

Nation after nation in Europe has fallen victim to the same technique. Norway is the latest to suffer. Even as these words appear in print, Holland or Rumania or some other small country may see their fears justified, and follow in the footsteps of Poland and the others.

Adolph Hitler described the technique years ago in his book, "My Battle." He would conquer nations, he boasted, by establishing and encouraging enemies within their own borders, enemies who would betray their countries at the critical moment for their own real or imagined gain.

Americans can learn an object lesson from the bitter experience of the little lands of Europe. There are those in this country who consider the activities of the Dies Committee, and all other efforts to root out subversive activities in the United States, a mere political gesture and a waste of time. These people insist on wearing mental earmuffs and blinders in any kind of weather. They are willing to shout in the face of all evidence to the contrary, that "it can't happen here!"

Saner citizens, genuinely prizing the liberties we in this country enjoy, are not inclined to string along with this attitude. They believe rather that ounces of prevention are far better than tons and tons of the kind of "cure" now being forced upon many nations of the globe simply because their complacent citizens were satisfied to say, "Oh, why worry? It can't happen here!"

Lower Costs

"Industry today is characterized by the rapid introduction of new and simpler methods of making things in the mass by machines. In spite of Senator O'Mahoney's fear that unemployment would destroy the market for goods produced in mass, experience has shown that mass production by machinery has lowered costs to such an extent that goods once regarded as luxuries are now within reach of people of small means and that, in the end, far more labor is employed.

"It was true a hundred years or more ago in the case of shoes, which only a small number of the people then could afford. It has been true during recent years in the case of the automobile. Yet the improvement of machines continues every day, so fast that it is hard to keep up with it."—From the Baltimore (Md.) Evening Sun.

Spending Blitzkrieg

The United States is at peace. Great Britain is at war.

In the coming fiscal year, Great Britain's local and national government will spend 10 billion dollars. During the same period, government—federal, state and local—in the United States will cost well over 19 billion dollars!

Nation at war for its life—10 billion dollars of government spending! Nation at peace—19 billions!

Of course our population is three times as large as that of Great Britain. Allowance can be made for that, and the figures still remain startling in their implications, for it is well to remember that the British bill—still much smaller than ours—is two and a half times what it was in pre-war days.

Can it be that government in this country has declared war, too—war on economy and on the poor, defenseless taxpayer?

Politically Speaking

By JOHN W. DUNLAP
United Press Staff Correspondent

SACRAMENTO, May 9. — Many long months of speculation on the Olson recall movement finally has brought the filing of first petitions and the liklihood of an election in August of September.

The first filings of names in Sonoma and Santa Clara counties brought immediate charges it was a political move to embarass the Roosevelt delegation in the May 7 presidential primary, on which Governor Olson is a key member.

There were claims that the John Nance Garner campaign was behind the move. Francis B. Allchin, a signer of the recall petition, even went as far as to secure a temporary restraining order against the filing of any names in Los Angeles county until a hearing on May 10.

Allchin charged he Olson recall committee planned to file sections of the petitions piecemeal right up to the day of election to embarrass the Roosevelt delegation. Furthermore, said Allchin in his affidavit, "ranking agents" of the recall committee were leaders in the Garner campaign.

Under the California recall law, the final petitions must be filed within 40 days from the first petitions, and be represented in at least five counties. Since 318,176 names are required, it is almost certain that Los Angeles, San Francisco, Alameda, San Diego and one other large county will be in the hopper.

When the required total is certified, the lieutenant governor must call the election in not less than 60 nor more than 80 days. Many recall advocates believe that the balloting should be on August 27, the same day as the August primary.

The governor was scornful when informed of the petition filing. He said:

"I will leave it to the public to draw its own conclusions as to the motives of filing these petitions today, just prior to the election.

"If the recall should qualify, however, I will have plenty to say about the motives of the filing and the motives of the men behind it."

The election campaign started out to be pretty tame but it ended up in a blaze of controversy. Until the recall blast, the chief scrappers were Olson and Lieut. Gov. Ellis Patterson, the left wing leader who deserted the Roosevelt-Olson ticket.

Charges flew thick and fast, with the Garnerites getting in some good licks, too. The vice president's backers made the most of the point that Garner was the only avowed candidate in the race.

The ham and eggers were surprisingly silent in the pre-campaign days, apparently confirming their efforts to pension meetings.

Willis Allen, the ham and eggs leader, was not only trying to hold his disorganized forces together on the presidential delegation but petitions were being circulated for Ham and Eggs No. 3 on the November ballot. The first two plans were trounced at the polls but a streamlined version, designed to interest more voters, has been fixed up.

This new plan drops the minimum scrip payments to $20 but adds a $7 weekly payment for all unemployed between 21 and 50, and the same amount for students between 21 and 24.

Indeed interesting will be the total vote cast for Ham and Eggs. The movement either will be a has been or a full fledged minority vote that cannot be disregarded.

Republican leaders were not optimistic for a heavy vote because the GOP interest was barely perceptible for an unopposed delegation. After the ticket is qualified, however, the drums will begin beating. Mrs. Robert Taft will be visiting in California soon and all the Republican candidates will have covetous eyes on the unpledged delegation from the far west.

The election campaign has covered up the importance of the approaching legislative session beginning May 13. It should be a history maker of real proportions. A whole flock of interim committees will be filing reports that should raise some eyebrows and the governor will be under the stiffest pressure of his career.

There is no doubt that the old capitol building is witnessing some of the most dramatic times in California political history.

Just Wonderin'

I Wonder at the contents of old trunks—
How every object has a tale to tell;
That none can raise a voice and speak aloud,
Perhaps for all concerned is just as well.
I Wonder why so many useless things
Are carefully preserved from year to year,
To win from us when we are rummaging,
The tender tribute of a smile or tear.

I Wonder if there is an old trunk in your home, crammed full of useless but rather precious things, or filled with out of style or unseasonal wearing apparel. Does your trunk and its contents fascinate your children as your mother's trunk did you?

Remember grand mother's trunk in the attic? What queer old fashioned garments it contained and what a number of souvenirs of her childhood and early married life. What astonishing things came out of that old trunk each spring when its contents were taken out, unwrapped, hung out on the line for a sunning and when rewrapped and carefully replaced.

There was never the odor of moth balls in grand mother's trunk, the fragrance of lavender prevailed, and other spicy fragrances guarenteed to stop any moth that dared to approach this sanctuary of souveniors in orderly arrangement.

Then there was mother's trunk from which warm clothing was extracted when Jack Frost signaled and put back upon that gala day when spring came and these same winter garments, among them, ugh! In the old days red flannel undies were put definitely away for the summer.

I wonder at the fantastic ideas evolved from the in-growing brains of certain erudite American gentlemen. Samuel Chase's offer of one million dollars for the kidnapping of Adolph Hitler was bizarre enough, but why did he stipulate that the annoying dictator be delivered right side up, safe and unharmed, and what reasonable end could be achieved by bringing him before that leaning tower of flim-flam, the League of Nations? Can it be that Mr. Chase and his associates should be kidnapped, safely confined in padded cells and subjected to a long period of observation?

I wonder if you have noticed to what an extent campaign speeches are punctuated with the words, "we must balance the budget," reduce taxation, liberate capital and decrease the number of strikes; we must dismiss multitudes of governmental employees, stream-line relief roles and do away with unemployment; we must become rugged individualists, enlarge the scope of social security and aid the victims of foreign wars; we must practice economy, raise prices and elevate the standards of living, and so on and on. At times this we musting becomes somewhat envolved, confusing, even bewildering; we wish the worthy we musters, would explain more explicitly how all these desirable ends are to be attained.

Uncle Silas says: "I hear that Sheridan Downey has flopped again; seems to me he resembles the Irishman's flea, 'sure you put your finger on him and he ain't there."

POLITICAL PARADE

BY CLEM WHITAKER

"California's current depression is largely tax-made, and can be ended only when we end the terrific debauch of public spending that is responsible for it!"

The authority for that uncompromising indictment of extravagance in high places is Assemblyman Charles W. Lyon of Los Angeles, veteran law maker and one of the ablest leaders in the legislature.

Mr. Lyon, an influential member of the Assembly Revenue and Taxation Committee, made the additional comment: "Of all the states, this state has the worst record in extravagant government and extortionate taxation. As a consequence, we have created a tax-made depression in California that surpasses that of any other area in the United States."

The significance of that declaration is that it doubtless foreshadows the report which will be rendered to the legislature, when it reconvenes on May 13, by the Revenue and Taxation Committee of both houses.

In substance, the committees will report:

1. That the tax ceiling has been reached in California and that new tax burdens would have the threefold effect of depressing wages, destroying employment and slowing up business recovery.

2. That Governor Olson's demand for $50,000,000 in new taxes are wholly unwarranted and, if granted, would let down the bars to a new era of squandermania.

Indicating that "the depression" may be wearing thin as an excuse for big-time governmental spending, Assemblyman Lyon asserted:

"There has been a natural tendency, during the past ten years, to blame all our ills on the depression. But I have come to the conclusion that the depression, all too frequently, is being used as a blanket alibi for bureaucratic profligacy and our own inadequacy. It has become a sort of abstract, economic devil, which we can accuse whenever we find business shrinking, unemployment rolls lengthening and our governmental follies catching up with us.

"As a matter of fact, we have simply prolonged the actual depression and created an unnatural depression by plundering the cash registers of private business and industry to fatten government treasuries. We have taxed more men out of jobs in California than we have put back to work with all our tax supported projects, and it is time to end the whole silly business."

Unless all signs fail, Governor Olson will ge the same answer on his tax bills, when the session opens next week, that he got at the special session last February.

The answer will be "No!"

Most mysterious are all the rumors floating about concerning the Olson recall petitions. There have been so many phony reports concerning when the petitions would qualify that skullduggery has been suspected at the cross-roads. But the lowdown, our spy advises, is that the boys have been having money troubles. The present prophecy is that the recallers have missed the boat, so far as the August primary is concerned, and won't attempt to get the issue on the ballot now until the November general election.

Spring flowers and candidates are coming up in almost equal profusion. Hot on the heels of Assemblyman Thomas Kuchel's announcement that he will seek to step up to the Senate, Thomas K. Gowen, former mayor of Fullerton, has announced for the Orange county assembly post that Mr. Kuchel is vacating. And in San Francisco, the news is out that former Assemblyman William B. Hornblower has hit the come-back trail and will have a try at unseating Assemblyman Dan Gallagher in the twenty third district.

The Governor Olson-Ellis Patterson feud, which flared into bitter recriminations during the presidential battle, may run on forever, like Tennyson's brook. Mr. Olson for instance, has about decided to throw rocks at Lieutenant Governor Patterson's candidacy for the U. S. Senate. And Mr. Patterson, not to be out done, is thinking of jumping on the recall bandwagon, with an endorsement of Senator Kenney as Mr. Olson's successor. And that's real feudin'!

NATIONAL COTTON WEEK

SACRAMENTO, May 10.—(UP)—"Call for cotton when you buy," will be the slogan of the week when citizens throughout the nation observe National Cotton Week, May 17-25, W. B. Parker, director of the department of agriculture announced today.

More than 100,000 retail establishments in the metropolitan and rural areas Parker said, will concentrate their promotions on cotton, and urged all California dealers in cotton goods to participate fully, in an effort to get more cotton in the hands of the users.

THINKING OUT LOUD

(Continued From Page One)

but as preservative of the honey. Just before each honey cell is capped with wax, a worker bee will exude a tiny drop of formic acid upon the honey. The bees also gather and preserve pollen, distributing each kind of pollen, according to the variety of flowers visited, into the same cells.

The honey, wax and propolis, which resembles a hard brown lacquer, are all staple articles of commerce. The wax has a wide use as floor and furniture polish, propolis is used in the varnishes for finer grades of furniture and for years, sometimes scores of years, furniture thus varnished will give off a faint delightful fragrance of flowers. Honey in ancient times was almost the only kind of sweet known, and it has passed to nearly all languages in nouns, verbs and adjectives to denote the pleasant and joyous things of life. On the material side it is one of the food resources of the world esteemed in culinary arts, but most of all as a healthful and delightful food in its natural state.

High Officials Visit Fair

First of a long list of high federal and state officials to visit the Fair in '40 on Treasure Island were Secretary of the Navy Charles Edison, left, and Governor Culbert L. Olson of California. They attended a pre-opening reception given by Marshall Dill, president of the Exposition. Visits by officials will culminate in a tour of the Exposition by President Roosevelt.

PACIFIC BALL CLUBS IN NECK AND NECK RACE

With the Pacific Coast League baseball season over a month old and all eight of the clubs separated by less than six games from the first place club to the last, a great pennant race is in prospect with the possibility that any one of the eight clubs can win the championship.

This week the Solons and their arch-rivals, the San Francisco Seals, have been battling it out for the right to jump each other in the league standings and will furnish their series with a double header Sunday afternoon amid a planned celebration and fan fare which promises to be a real treat to attending patrons. Officially the Sunday double header has been designated as Southern Pacific Day and promises to furnish almost as much rivalry between visiting San Francisco fans and Sacramento rooters as the two ball clubs.

The famous 60 piece S. P. band will head a large contingent of S. P. employees from the bay region who will come to Sacramento to support the Seals. Sacramento rooters and S. P. employees from Roseville, Colfax and other surrounding points are likewise coming to Cardinal Field Sunday to boost for a twin victory by the Solons on that day.

FARMERS OF NEVADA COUNTY ENROLL IN AAA

More stability for local agriculture should result from the increased farm program sign-up in Nevada county, if all the 204 farmers who signed up cooperate in the conservation and adjustment phases of the program.

So stated AAA chairman, William Jaeckle, after checking the tabulation of the sign-up which closed May first.

This year, the sign-up covers 92 per cent of the total farmers in the county and 96 per cent of the cropland. The 1939 sign-up included 15 per cent of the farmers and 35 per cent of the cropland.

The Farm Plan gives the individual farmer, as well as he county office a concrete record of what he may do on his farm under the 1940 program. It includes the acreage allotments for the farm, the soil building practices which may be carried out, and an estimate of the maximum payment the farmer may earn through his participation.

According to Jaeckle, farmers who have signed the Farm Plan and who participate in the program will be eligible for (1) 1940 conservation payments; (2) 1940 price adjustment payments; and (3) crop loans if offered.

WILD DUCKS RARELY DIE OF STARVATION

SACRAMENTO, May 10.—(UP)—Wild ducks seldom, if ever, die of starvation.

This conclusion was reached by the U. S. biological survey following an investigation of reports that unusually large numbers of waterfowl had starved during the past severe winter in many sections of the country.

Studies conducted by the biological bureau revealed that in practically every case of starvation reported something besides the lack of food was responsible for the death of the birds. The chief cause of the increased mortality, it was found, came from lead poisoning which was blamed for about 50 per cent of the deaths.

There are eleven miles of pipeline along the floor of San Francisco bay, carrying gas for heating and cooking on Treasure Island.

RANCHERS ACT TO PREVENT EROSION

That ranchers in this county are well aware of the need to conserve their ranges if they desire to continue in the livestock producing business is indicated by the increased sign-up in this year's AAA range conservation program.

When the 1940 program sign-up closed May 1, a total of 30 ranchers had filed requests for participation an increase of 20 per cent over last year.

These ranchers have already worked out plans with the local county agricultural conservation office for conservation measures to be carried out between now and August 31, when the program year ends.

Deferred grazing to allow natural reseeding of depleted range lands is being carried on by 25 ranchers on a total of 12,043 acres.

Plans for developing watering places are being made on ten ranches to help secure a better distribution of cattle over the range, another practice which prevents overgrazing.

More than 20,000 press courtesy passes have been mailed out to the newspapermen of America by the 1940 Golden Gate Internatoinal Exposition.

What to do when the bug bites you!

FIGURES show that about one out of every five able-to-purchase new-car buyers really *wants* a Buick more than any other car.

Not all will buy one.

Too many of them will shake their heads and sigh, "Nope! A car that big and handsome *must* be out of my reach!"

You'll be smarter than that, we know.

You'll realize it *doesn't cost a cent* to find out how a Buick feels—and what its delivered prices are.

So you'll walk in to the nearest Buick dealer and say: "Let me have a good look at that car that's showing the rest what modern style is.

"Let me try out that big straight-eight engine that's electrically balanced *after* assembly to watchworks' smoothness.

"Show me those big soft coil springs you talk about—and what's the business about recoil-mounted Knee-Action, heaviest frames at the price, five-foot front seat room in SUPER models, and six dozen new 1940 features?"

When you've got the answers through a good long ride—ask one more question: "How much?"

Current prices† start at $895 ★for the business coupe, delivered at Flint, Mich. To this add transportation based on rail rates, state and local taxes (if any), and optional equipment and accessories—and you'll still get mighty low delivered prices.

When the bug bites you, *get the facts*—and you'll get a Buick and be happy!

†*Prices subject to change without notice.*

OUR SALES ARE SWELL!—and so are the deals your Buick dealer is making!

"Best buy's Buick!"

EXEMPLAR OF GENERAL MOTORS VALUE

Buick prices begin at $895★ for Business Coupe (illustrated)

CHURCHES

METHODIST CHURCH SUNDAY SERVICES

8:30 a. m. Holy communion. 9:45 a. m. Church school. 11 a. m. Holy communion and address. The rector will address the congregation upon: "Mary, Mother of Our Lord." The vested choir will be directed by Mrs. Marian Libbey, Miss Mary Libbey will be at the organ. The music will include: "The Kyrie", "The Gloria Tibi," "The Gloria in Excelsis," "The Laus Tibi" and special offertory music which will be rendered by the young people in the high school choir. These young people from the high school form the choral club under Mrs. Libbey's direction there.

A Call ot Confirmation

The first Sunday in June, Bishop Porter comes to confirm our people who have been preparing themselves for confirmation during the past 12 weeks. When the bishop comes he will not only confirm the young people and the adults who are now ready for confirmation, but he will also institute the new body of vestrymen and express his gratitude to those retiring.

Confirmation classes will begin again during the summer months for all those who are interested in being educated for this step in better living. The confirmation class closes its period of instruction with three social hours. These are held in the homes of Mrs. A. B. Innis, Mrs. Ethel Parsons and Mrs. Frank Ghidotti.

TRINITY EPISCOPAL CHURCH SERVICES

Week events. Bible study and prayer Tuesday evening at 7:30 p. m. Choir practice Wednesday at 7:30 p. m.

SLOW SIGNAL ASKED FOR LA BARR MEADOWS

The residents of La Barr Meadows near Grass Valley, have petitioned the state highway commission to place "slow" signs at the north and south approaches to the community.

A petition states the placing of signs may have the effect of slowing traffic which speeds through the community without regard to the dangers involving children who must cross the highway going to and from school.

Czecho-Slovakia though prostrate, will be represented with exhibits at the Golden Gate International Exposition of 1940.

VFW CONDEMNS POSTER RACKET D'URING HOLIDAYS

The practice of persons representing themselves as disabled veterans selling posters to business houses prior to patriotic holidays was condemned this week by Banner Mountain Post, No. 2655, Veterans of Foreign Wars at its regular meeting Wednesday night. According to veterans, neither the post nor the American Legion receives a commission from these sales. The men selling them make a profit of about 45 cents on each sale.

The local veterans say that this acts against them when they come before the public with requests for patronage.

The post has contracted for 7500 poppies, made by disabled veterans in hospitals, to be sold here and the proceeds turned back to the hospitals to provide the inmates with amusement and recreation.

The post has planned for a big dance to be held in the near future. But so far they have not been able to obtain a suitable hall.

At the meeting presided over by Commander Howard Bennetts, one man was recruited and the applications of four others were approved.

DEMONSTRATION OF WELDING IS ATTENDED BY 150

One hundred fifty local welders and mechanics attended a welding and cutting demonstration held by the Air Reduction Sales Company last Wednesday night, sponsored by Alpha Stores, Ltd., of Nevada City and Grass Valley.

Welders and mechanics were present from almost all of the local mines including Alleghany and Downieville districts, Zeibright and all of the Grass Valley mines.

One of the features of the show was the cutting of rivets with an oxy-acetylene torch by merely heating the head of the rivet. This is done by using a large amount of oxygen and a very small amount of acetylene.

Several new developments in the welding industry were exhibited, such as welding of galvanized pipe without destroying the galvanizing, a new type of pipe fitting which is merely heated with a torch instead of being screwed on, and the introduction of a new flux coated bronze welding rod.

After the demonstration a number of the local men spent about an hour in using the apparatus and in trying out the Wilson arc welder.

RAINBOW GIRLS WILL INSTALL STAFF TONIGHT

Nevada City Order of Rainbow Girls will install its fourth set of officers Friday evening, beginning at 8 o'clock in the Masonic Temple. Betty Smith, outgoing Worthy Advisor, will act as installing officer, assisted by Installing Chaplain Pauline Marshall and Installing Marshal Adrianne Barnhardt. Newly elected and appointed officers to be installed are: Worthy Advisor, Marian Gwin; Worthy Associate Advisor, Elsie Schreiber; Charity, Madeline Bettles; Hope, Joyce Henwood; Faith, Lucille Danos; Chaplain, Pauline Marshall; Drill Leader, Ruth Mitchell; Musician, Mynola Marsh; Choir Director, Adrianne Barnhart Confidential Observer, Doris Rosynski; Outer Observer, Barbara Phariss. Representing the colors of the rainbow will be: Red, Betty Norton; Yellow, Sylvia Tyhurst; Green, Dolores Rockefeller; Blue, Barbara Neal; Indigo, Virginia Bonebrake, and Violet, Francis Savio.

Mrs. Esther Joyal, who has been Mother Advisor for the order since its institution in Nevada City, advises that the ceremonies will be open, and invites all relatives and friends of the Rainbow Girls to attend. Masons and Eastern Stars are eligible to attend all meetings of the order, and are especially incites to witness the beautiful installation ceremonies. Miss Ruth Tamblyn, Worthy Matron, and Clyde Gwin, Worthy Patron, of Evangeline Chapter, O. E. S., sponsor of the order in Nevada City, will be introduced and escorted to the east.

Nearly ninety acres of the Golden Gate International Exposition will be devoted to flowers, plants, shrubs, trees and lawns during the 1940 fair.

BEST AIR TALENT POOLED IN LATEST TROPICAL COMEDY

When the Dean of the Kraft Music Hall and the top man of the sparkling Pepsodent radio show call for a merger, and make Dorothy Lamour a party to the thing, there's a very good chance that millions of radio fans will see just the movie that they've been waiting for all these years. And that's just what happens in "Road to Singapore", which Paramount will present on Sunday at the Nevada Theatre with Bing Crosby, Dorothy Lamour and Bob Hope singin' the songs and slingin' the jokes.

Not since his earlier ventures into the South Seas in "Waikiki Wedding" has Bing had such interesting company as Bob Hope and Dorothy Lamour, who recently vowed 'em in a couple of pictures called "The Cat and the Canary," and "Disputed Passage," in which Miss Lamour had a serious role. Il seriousness has vanished like a grass skirt in a fire for this picture, however, and the top trio, abetted by Charles Coburn, Judith Barrett, Anthony Quinn and Professor Jerry Colonna, are out to provide merriment and music.

CAR LICENSE TAX MONEY GIVEN TO CITIES. COUNTIES

California cities and counties are about to receive a total of $5,919,903.20, which represents their share of the motor vehicle license tax recently collected by the state, it was announced today by Joe Mattson, director of the Department of Motor Vehicles.

Nevada City received $1,166.99 based on a population of 1701, and Grass Valley was allocated $2,618.69 computed by a population of 3,817. Rate per capita for cities is $.686. Nevada county with a population listed at 10,596 received $5,524.44, or $.521 per capita.

Prior to January 1, 1936, the motor vehicle license tax was collected by the counties but is now paid into the state at the time the annual motor vehicle registration fee is paid.

Personal

Leaves For Utah—

Chester Peterson will leave Sunday for Milford, Utah, to return with his wife who has been visiting her mother, Mrs. Fred Jefferson, a month. Mrs. Jefferson, former Nevada City resident, will accompany them here for a month's stay. On the party's return trip they will be joined by Mrs. Cliff Pooler, who has been visiting relatives in Kemberley, Nevada.

Boy Goes to Hospital—

Little Gordon Lageson is in Sutter Hospital in Sacramento. His parents took him down Tuesday evening and Mrs. L. G. Lageson is remaining in the city to be near him.

Marriage Application—

A marriage application was made Wednesday, May 8 in the Nevada county seat by Buel Harold Richardson 23, and Helen Gertrude Winney, 20, both of Nevada City.

Business Visitor—

Arthur T O'Connor of Birchville was a business visitor in Nevada City ednesday. O'Connor has a beautiful rose garden which is just in its prime now, the climate there being ideal for this queen of flowers.

Inspects Forest Areas—

Guerdon Ellis, supervisor of the Tahoe national forest, and G. E Mitchell engineer with the local forest service, left Wednesday on an inspection tour of the Sierraville and Truckee area.

Visits Downieville—

C. M. Gwin, administrative assistant for the Tahoe national forest, went to Downieville yesterday on work for the forest service and will return today.

Grazing Survey—

Elmo A. Brough has arrived in Nevada City to assist Leland Smith in grazing survey work. Leland Smith has been in charge of the grazing division of the local national forest for many years.

Resorts to Cane—

Dr. J. R. Ivey, city councilman, is getting about with a cane this week having stepped on a nail while cutting kindling wood at his home this week.

The best in the world of music, will be heard on Treasure Island during the 133 days of the 1940 fair. Symphonies, swing, sweet music and all the intermediate variations will be presented in their turn.

Attend Convention—

Robert Pane of Nevada City and Elton Williams of Grass Valley have been chosen as delegates to the Young Republican's convention in Los Angeles Saturday and Sunday, May 11 and 12. They will stay at the Biltmore Hotel while in Los Angeles.

SCOUT CAMPOREE AT HAMPSHIRE ROCKS IN JUNE

Announcement was made today from the scout headquarters in Auburn that the scouts and troops of the Tahoe area council will stage a camporee on Saturday and Sunday, June 15-16 at Hampshire Rocks on U. S. Highway 40. It was originally planned to join with several other councils in this activity but that plan has failed to materalize.

The decision came as a result of the commissioner's meeting on Thursday of last week when the matter was presented.

Scouts will participate in the two day outing on the same basis as in all previous camporees and will demonstrate their knowledge of camping and patrol operation on a small area.

The location of the site is expected to draw a good number as it is well in the mountains and yet easily accessible to most of this area.

Complete plans will be discussed and concluded at the scouter roundtables which are held monthly in Placer and Nevada counties.

Seven new boats are under construction for the use of scouts at their summer camp at Pahatsi this year, according to information received from Edgar A. Williams, scout executive. "The boats are all twelve feet long, and are of an unusually safe design for camp use," Williams said, "and are expected to prove popular with the scouts. In addition to the rowboats the camp also expects to have two new canoes and a small sail boat for new features at camp. A number of the old rowboats have been under repair for some months and are expected to be in good shape for the summer program which starts on June 22 this year and runs through to the end of August.

The boat construction is under the supervision of Harris Rollins and is made possible by the cooperation of Dr. John Napier of the Placer Union high school.

Mother's Day, May 12- Our Tribute To Your Mother

We can think of no holiday more in keeping with the American Tradition than Mother's Day. It has ever been "American" to honor the great heroes of our land—is it not fitting, then, that we should set aside a day in honor of our greatest heroine, the American Mother?

But Mother's Day takes on added importance when we stop to think of how personal this holiday is. All American mothers of course we honor, to our own Mother we pay special tribute. And what can we compare with that inner joy that comes with giving good gifts to those we love. Remember your Mother!

TRAFFIC WHYS

By CHIEF E. RAYMOND CATO, California Highway Patrol

Traffic questions should be forwarded to Chief Cato at Sacramento. Answers will appear at an early date.

Q—Almost daily on my way to work I come upon a street car stopped to take on passengers. Am I supposed to wait for all persons to get on the cars? When I do, I am made the object of horn tooting drivers behind me who seem irritated by the delay. What am I to do? Confused.

A—Where a safety zone has been established, or at an intersection where traffic is controlled by an officer or a traffic control deice, a vehicle need not be brought to a stop before passing any such interurban electric or street car, but may proceed past such car at a speed not greater than 10 miles per hour and with due caution for the safety or pedestrians.

Q—Can I, or can I not, park my car alongside a fire plug for 15 minutes. Every time I do so become involved in an argument with a police officer, and sometimes we both are so mixed up we give up. L. V. B.

A—Yes, but only when such vehicle is attended by a licensed operator or chauffeur who is seated in the front seat and who can immediately move such vehicle in case of necessity.

You must use your judgment concerning this as some fire hydrants are located close to intersections in downtown districts and you must avoid parking your car in the pedestrian crossing lane which sometimes is painted back far enough to keep the hydrant clear.

Q—Is an extra fee required to register a motor vehicle in California which has been driven by the same owner here from Ohio? Mrs. M. T. W.

In addition to the usual registration fee there shall be paid an additional registration fee of $3 for the original registration within this state of every vehicle previously registered outside this state. If such vehicle has been regsitered and operated in this state during the same year in which application for re-registration is made, a fee of one dollar only shall be paid.

Q—Is there a limit to the length of the drawbar and chain that may be used when one vehicle is towing another? B. McC.

A—Yes, there is. The Vehicle Code limits the length of a tow bar or other connection to 15 feet. Always be sure that an extra connection between such vehicles is strong enough to hold the towed vehicle in the event the drawbar or other regular connection should break or become disconnected.

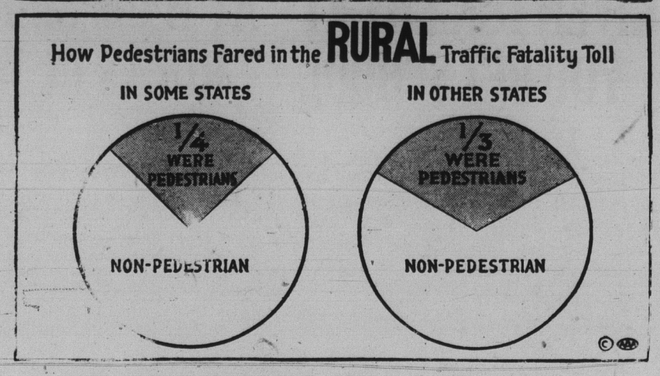
Pedestrian Protection — On Rural Highways



RURAL TOLL SERIOUS: Though not as large as in cities, the rural pedestrian fatality toll is still serious. A pedestrian accident in a rural area is five times as likely to be fatal as in a city. Most of these fatalities occur on the outskirts of cities and villages, according to a three-year study made by the American Automobile Association. Pedestrian deaths in city and rural areas combined account for 40 per cent of the nation's traffic toll.

ANYONE IN MARKET FOR UTOPIA? STATE HAS ONE FOR SALE

SACRAMENTO, May 10.—(UP)—Anyone in the market for a former "utopia" may purchase the remains of one from the state of California for $26,742.

The department of finance has set the price on 216.87 acres remaining in the Delhi resettlement project, established by the state in 1917.

The project was intended to aid persons in acquiring small farms on easy terms, but there was insufficient water and the land was none too fertile, finance officials explained. The enterprise was in operation only a short time but the cost of administering the affairs of the settlement is still continuing at the rate of $255 a month.

The department sold 5.78 acres of the land during March for $200, and would "talk turkey" with any prospective purchaser of the remainder.

SOCIAL SECURITY AID RECEIVED BY MANY

SACRAMENTO, May 10.—(UP)—A total of 41,026 needy children under the age of 18 years received social security assistance totalling $773,698 during March, an average of $18.86 per child, Martha A. Chickering, director of the department of social welfare, announced today.

In Nevada county 141 children received $2,416 an average of $17.14.

The federal government, state and counties cooperate in making the assistance payments.

CASMORE TRANSFERS TO ARMY AIR CORPS

Carlos Casmore returned to the Presidio at San Francisco Sunday after a ten day vacation at the home of his parents, Mr. and Mrs. W. Weege on Sacramento street. He has enlisted into the air corps and is waiting word of transfer to McCloud Field, Washington. He will go with 400 other young men who have enlisted into the army about two years ago and has been studying, working himself up to typist in officers quarters. He will continue his work as a typist in the air service.

AUTO GAS USAGE

Engines of motor vehicles in the United States consume a daily diet of 60,000,000 gallons of gasoline, according to the California State Automobile Association.

BASEBALL FAN AMASSES LARGE HOBBY LIBRARY

PHILADELPHIA (UP)— One of Grover Cleveland Alexander's masterful performances 14 years ago started a youth of 11 on an unusual hobby.

The youth, Bruce B. Foster, now a 25 year old shipping clerk, was sitting in the stands when the great Alexander struck out Tony Lazzeri in the last game of the World Series between the Yankees and the Cardinals in 1926.

The feat inspired Foster and he started compiling baseball statistics. He cut clippings and scores from the newspapers, collected books on baseball. Now he has a sports library of nearly 400 volumes and is still adding to it.

Foster has one prize in his collection. It is a book on "American Pastimes" by Charles A. Peverelly. Published in 1886 it gives an early history of baseball.

The stationer's clerk, however, does not confine his fact finding journeys to newspapers and magazines. Last year alone, Foster saw 63 major league and 62 semi-pro games, the All-Star Game one of the World Series games and was present at Lou Gehrig Day at the Yankee Stadium.

MORE POISONINGS

SACRAMENTO, May 10.—(UP)—Poisoning as a means of death is on the upgrade in California, both from accidental and suicidal causes, it was revealed today by Dr. Walter Dickie, director of public health.

Poison was used for suicide 307 times in 1936, 343 times in 1937 and 361 in 1938. For accidental deaths, totals for the three years were 73, 82 and 87.

One hundred seventeen different poisons were listed as causing death.

WHITE BUFFALO ODDITY IN HERD ON U. S. RANGE

BILLINGS, Mont. (UP) — Montana leads the nation not only in buffalo population, according to Kenneth F. Roahen, federal game agent for Montana and Wyoming, but it also boasts probably the only albino buffalo in the world.

Recent census figures obtained by Roahen show that of the slightly more than 5000 of the shaggy beasts in the United States and Alaska, 1,044 are in Montana.

More than 900 are divided between the National Buffalo range at Moiese and the Crow Indian reservation in south central Montana. The rest are scattered among various ranches throughout the state.

The white buffalo a rarity even when buffalo were as common as cattle are now, was born several years ago on the government range at Moiese.

Dr. W. T. Hornaday, internationally known biologist, tells that he "met many old buffalo hunters who had killed thousands and had seen scores of thousands of buffaloes, yet never had encountered a white one."

Another authority, E. Douglas Branch, said there was "only one white animal in the 5,000,000 or more bison of the southern herd."

Indians looked upon an albino with awe and considered it "big medicine." For a good skin they sometimes paid the price of 10 or 15 horses, according to Branch. White men also coveted the rare pelts and there is a report of a plainsman who sold one for $1,000.

BAY HOTELS WILL KEEP RATES DOWN FOR '40 EXPOSITION

Hotel men of San Francisco have joined forces to announce a drastic slash in rates effective during the run of the 1940 Golden Gate International Exposition.

In an earnest desire to provide reasonable accommodations for fair visitors, San Francisco Class "A" hotels have stabilized their rate standard, with prices starting from $4 for singles; $6 for doubles and $7 for twin occupancy.

Class "B" rates have been similarly reduced to $2.50, $3.50 and $4, with many rooms available at these new low prices, hotel managers said. Slightly higher rates will obtain for more expensive suites.

In the Class "C" group single rooms may be had from $2 to $2.50, with doubles and twin occupancy starting from $3 to $3.50 and $4 to $5, respectively.

Meals, both American and European plan, will be obtainable at over 250 San Francisco hotels, with proportionate reductions according to class grouping.

As a basic rule, adopted by all agencies involved, there will be absolutely no "price hiking" during Treasure Island's 1940 season. Restaurant prices, amusement costs, the transportation fares—every expense involved in the entertainment of the guests—will be maintained at regular low levels.

STEEL CONSUMPTION

The American automobile industry consumes more steel in one week than the United States Navy consumes in three years, according to a statistical study, reports the California State Automobile Association. Half of all the steel manufactured comes from scrap, and scrap dealers last year sold 34,800,000 tons to the steel industry.

Nevada City Nugget Will Supply You With a Flag

AS A PREMIUM ON SUBSCRIPTIONS PAID INTO THIS OFFICE —BEFORE JULY 3RD—

These flag outfits represent a conservative retail value of $1.50—They consist of the FLAG, 3 feet wide, 5 feet long, made of durable cotton bunting, with sewed stripes, and printed stars, a sturdy brass jointed pole six feet long, varnished with a hardwood varnished knob to cap it, a cotton rope and a strong aluminum holder for screwing onto porch or window sill, the whole packed neatly in a metal cornered shipping board box.

THIS OFFER IS OPEN UNTIL

July 3, 1940

To and old subscriber or new subscriber who brings into the Nugget Office $2.50 in advance for a years subscription to the Nugget, (issued Mondays and Fridays.)

THE FLAG OUTFIT IS FREE TO SUBSCRIBERS, NEW OR OLD. WHO PAY A YEAR'S SUBSCRIPTION ($2.50) IN ADVANCE

NEVADA CITY NUGGET 305 BROAD STREET

MANY LIMITS

Local sportsmen continue to bring in fine limits of trout from nearby lakes and mountain streams. "Whispering" Dick Lane has been out four times since opening day May 1 and caught limits each time two of them being weight limits. Will C. Buffington also brought in a fine limit of trout on the opening day.

From the Bay—

Miss A. McCraney of San Francisco is visiting her sister in law, Mrs. O. McCraney, and family in Nevada City.

HIGH SCHOOL NOTES

By BARBARA PHARISS

MOTHERS DAY TEA

The home economics department will give their annual Mother's Day tea on Friday afternoon in the court at the high school. All mothers are invited as guests. The main event will be a fashion show put on by the members of the sewing class. Sports, formal and afternoon clothes will be modeled, each girl wearing what she has made. A string sextet will supply the music. The sextet is composed of Jean Elliott, Kathleen Fissel, Jack Neal, Margaret Shearer, Johnnie McCarthy, and Mr. Smith. Mary Libbey, piano. Different members of the choruses will present several musical selections. Tea will be served by the foods department.

PIONEER DAY

The twenty-second annual pioneer day will be held at the Chico State College on Saturday. All high school seniors are invited to attend. Several students will attend from here. A good program has been planned at the college and Bidwell Park, with a dance in the evening.

SENIOR BALL

The seniors have begun planning for their ball on May 10. A group was chosen to represent the class and to choose a theme. They met Tuesday night and have some very promising plans.

HOME FROM PHILIPPINES

Albert Johnson, who has spent four years in the Philippine Islands, arrived Wednesday evening on a visit to his brother, Leonard Johnson, local police officer, and other brothers. He came as far as Auburn with another young man returning there to visit. Mr. Johnson will spend a three month's vacation in the United States and return to his duties with a mining company. He has been with the San Marisco Mining Company nearly all the time he has been in the islands. He has met several Nevada City men when he has visited in Manila, one of them being John Ghidotti. Johnson spent ten days in Nevada City with relatives before leaving for the Philippines and is enjoying meeting several friends.

Religious services of virtually every creed will be held in the Temple of Religion on Treasure Island during the 19 Sundays of the 1940 Golden Gate International Exposition.

Social Events

Hazel Thomas Married In Reno Saturday

The marriage of Hazel Thomas of Nevada City and Jack Whitford of Grass Valley Saturday morning in Reno was announced this week. The ceremony was performed in the Methodist-Episcopal church with Rev. Schmidt officiating.

Miss Dorothy Thomas, sister of the bride, and Mr. and Mrs. Grenfell of Grass Valley accompanied the couple to Reno.

The bride is the daughter of Mr. and Mrs. Charles Thomas of Silva Avenue and is a graduate of the Nevada City high school with the class of 1937. She attended beauty school in Oakland and has been employed in Bowman's Beauty Shop since that time. She is a member of the Business and Professional Women's Club of Nevada City.

The groom is the son of Mrs. Jack Wasley, Empire street, Grass Valley and is employed at the Empire mine.

PTA Mothers Day Tea Will Be Today

The Mothers Day tea to be given by members of the Nevada City high school PTA will be held this afternoon at 3 o'clock at the high school.

Miss Mildred Severtson, teacher of domestic arts, is in charge of the affair this year and will give a fashion show with gowns made by the girls in her sewing classes. Tea and cakes made by members of the cooking class will also be served.

A string quintet conducted by Ralph Smith, music instructor, will contribute musical numbers while girls are modeling the gowns and during the tea hour.

All mothers are cordially invited to be present.

Evangeline Chapter, O. E. S. Holds Officers Night

Evangeline Chapter, O. E. S., held an elective and appointive officers night Tuesday evening and one hundred members and visitors were present for a delightful meeting. Among those entertained were officers of the chapters in Roseville, Colfax, Dutch Flat and Grass Valley. A program honoring Mothers Day was rendered after the meeting with Tom and Bill Rickard, Bill Wagner and Mrs. C. E. Bosworth taking part. Particularly appropriae was the song "That Wonderful Mother of Mine," sung by Tom Rickard.

A gay May time theme was carried out in the dining room and on the tables. Tiny Maypoles with crepe paper streamers were on each table and candy clowns were favors. Huge bouquets of white hawthorne and and the yellow Scotch broom were used in profusion about the room.

Masons, Eastern Star Meet Wednesday

Forty five Masons, their wives and members of Evangeline Chapter, O. E. S. enjoyed a delightful meeting Wednesday evening in Masonic Hall. The P. G. & E. company presented movies of Sierra playgrounds which were quite educational and beautiful. Refreshments were served at the close of the meeting. Cameron Larsen is master of Nevada City lodge, No 13, F. & A. M.

LOCAL ANTLERS PLAN MOTHERS DAY PROGRAMS

Final plans for the annual Mothers Day observances by the Nevada City Lodge of Antlers to be held Sunday night at the Elks Home were completed this week. A special invitation to all the mothers of the community has been issued by Exalted Antler Craig Davies.

This is the second year that the Antlers have sponsored such an event. Tribute to motherhood is one of the cardinal principles of the ritualistic work.

The program being arranged will include a speaker, musical selections and a message from the past exalted antler of the lodge.

A special observance by the Antlers this year, with cooperation by the Nevada City Lodge of Elks, will be the distribution of bouquets of flowers on Mothers Day to all the shut-ins of the community. The flowers will be arranged and distributed Sunday morning by a committee of Elks and Antlers.

The observance was conceived by the Elks Lodge and it is planned to make this an annual event. Any person having any knowledge of shut-ins are asked to notify John O'Neill at the Morning Union office.

Quartz and Placer claim location notice blanks at the Nugget Office.

ABSENTEE BALLOTS

The board of supervisors met yesterday to count the ballots from Tuesday's primary election. It is estimated they will complete this work today.

SAFEST TRAFFIC CITY

Evansville, Ind., with a population of 105,100, is headed for a goal of 200 das without a motor vehicle fatality after having recently passed the 150 day mark.

BRIDGE IMPROVED

A small crew of city employees went to work on the southern approach of Gault Bridge Tuesday widening and completing work started there early this spring.

TO WHOM IT MAY CONCERN:

C. Leonard Arnett is not employed by us, and we will not be responsible in any way for any of his transactions.

If interested in termite control please phone 1936 Marysville, or address 528 12th Street, Marysville.
